Together against the reestablishment of the AfD youth organization in Giessen!

widersetzen

On **November 29 and 30**, the AfD plans to establish a new **youth organization** in **Gießen**—with a modified imperial eagle and names such as “Young Patriots” or “Patriotic Youth.” The “Young Alternative” was terminated in January, and must remain that way.

No matter what name, an AfD youth organization will be a **breeding ground** for fascists, fraternity members, and hooligans. It would have close ties to neo-Nazis like the Identitarian Movement. With the Young Patriots, the AfD wants to raise a new generation of **violent** fascists.

This is a direct **threat** to all people who are declared enemies by the right wing: to migrants and refugees. To everyone who does not look German. To everyone who wants to live and love queer. To everyone who stands up against hate and separation. **To all of us.**

Young **people do** not **need** fascist organizations, but social security, affordable housing, **peace, democracy, and freedom** of self-determination.

The **state does not protect us** from fascism. On the contrary: many parties are following in the footsteps of the AfD with their policies. That's why we must **take action ourselves!**

We stand firm against the establishment of the AfD's youth organization.—very directly, as a conspicuous community, at the end of November **on the streets** of Giessen.

Come with us! Be disobedient! We are many!
