

NO AFD FEDERAL CONVENTION IN ERFURT! WIDERSETZEN NOW.

On the 4th and 5th of July, exactly 100 years after the Nazi-Party-Convention in Weimar, **the AfD will hold their own convention in Erfurt.** This decision makes clear for everyone to see, what the AfD stands for: dictatorship and fascism. Already today we are able to witness where this is heading by looking to the US: ICE-Terror in our cities and mass deportations. **We can't let that stand!**

The AfD is a fundamentally fascist party.

Höcke and his supporters use Nazi Slogans in parliament. At the same time other parties are already now implementing AfD policies instead of fighting fascism.

Never again als means: never again fascist conventions.

We will engage in mass civil resistance on the streets around the convention center. Every minute and every hour we delay this fascist event are crucial. Every vacant seat a political win.

widersetzen has shown us in Essen, Riesa and Gießen what is possible wenn thousands of people work together.

Erfurt ist just the next chapter: bigger, more committed and more steadfast than ever. Be part of our action. With thousands of people from Erfurt, Thuringia and the country at large. Together we are unstoppable.

We are widersetzen. We are people rooted in every corner of the globe. We are students, Azubis, Grandparents and everything else fighting fascism. We are active in churches, in trade unions, in the climate movement and antifascist groups. We are cis, trans, straight, queer and everything in-between.

WE. ARE. WIDERSETZEN.
